REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the claims address tomosynthetic/3-D imaging with a spiral scan trajectory where projection data generated from different heights relative to the detector surface conveys greater depth information. This feature required by independent claims 1, 8, and 16 is neither shown nor fairly suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sugihara *et al.* US 2005/02655514 A1 shows varying the detector height, not the height to the detector.
